## **Covid-19 Update 26<sup>th</sup> April 2021**

### **Classic Sailing Surviving Covid-19**

Some 30 odd years ago two people met on a tall ship sailing adventure in Scotland, Since then they have got together, started Classic Sailing with Eve of St Mawes, Luke Powel's first pilot cutter, and added other exciting vessels. Many wonderful people, sailing adventures, oceans, and continents later I'm pleased to say we are still enjoying the adventure.

Covid-19 came, knocked Classic Sailing about a bit but we survived by becoming leaner, installing a new improved website, and by being here now so you can go sailing again.

### **The New Normal for Sailors.**

#### **Covid-19 Guidance**

All our vessels have very carefully implemented Covid-19 procedures and safety precautions to ensure you and the crew are looked after properly.

You may be asked about your Covid-19 situation a few days before you join your voyage and or you may have a lateral flow test before you board your vessel.

If you are unable to join the voyage there is flexibility built into the financial arrangements.

#### **Financial Security.**

Classic Sailing will not work with any vessel that we believe does not look after customers' money securely with the ability to be flexible and refund customers if Covid-19 or similar issues disrupts the voyage or your ability to safely join the voyage.

Every vessel has their own Terms and Conditions and they detail how they are able to refund you if your voyage is cancelled due to Covid-19. See [Terms and Conditions](#)

#### **Social Bubbles**

You can sail as a solo traveller, a couple, family, or household or with your own bubble!

If you have any questions please email us-
